# DEDICATION

Robert Desmond

The Class of 1989 proudly dedicates this yearbook to Bob Desmond. For fifteen years Mr. Desmond has been teaching metal shop. He has taught us a variety of things, and he made his classes interesting as well as fun. For your wisdom and for your dedication, we thank you very much.

## CLASS ADVISORS

JANICE GERSHLAK and JIM LEONHARD

### *Words of Gratitude*

Farewell and adieu says the senior class,  
With projects and days off the time it does pass.  
But alone we would struggle and be unorganized,  
Yet lucky are we, and keenly supervised.

The lines of this poem show thanks to those two,  
For persons of wisdom there are very few.

Mrs. Gershlak and Mr. Leonhard have helped in many ways,  
With class meetings and Prom Committee – in the past are the days.  
From 4A to 4B to the teachers from we,  
A big THANK-YOU, a small good-bye, the graduates to be.

Leaving isn't easy and often it brings tears,  
Especially when you've known someone for four long years.  
And now it's time to wrap it up, 'cause all this comes to an end.  
We won't forget you, and remember always . . .  
You've got a friend.

– JASON STYS

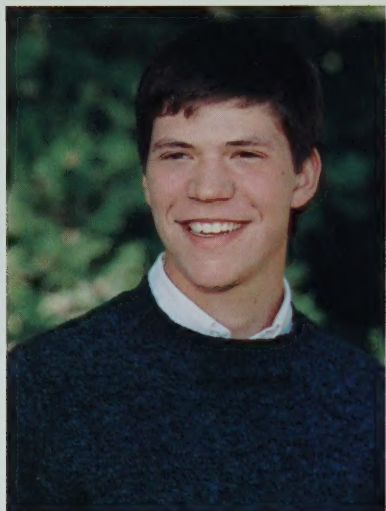

This poem is dedicated to our class advisors Mrs. Gershlak and Mr. Leonhard for their time and energy that they devoted to the Class of '89!!

## TO THE CLASS of 1989

On behalf of the faculty of the high school, I would like to wish each one of you both personal happiness and career success in the years to come. I feel confident that we have prepared you well to face the challenges of the future.

You can never fully recapture the joys of your high school years. You can, however, treasure the memories of those years and foster the friendships that you made. As you look through this book in the years to come, may it rekindle the feelings of happiness, fun, success, and friendship that you experienced at the Aggie.

Sincerely,  
Helen M. Hegarty

WE COULD HAVE

DANCED ALL NIGHT

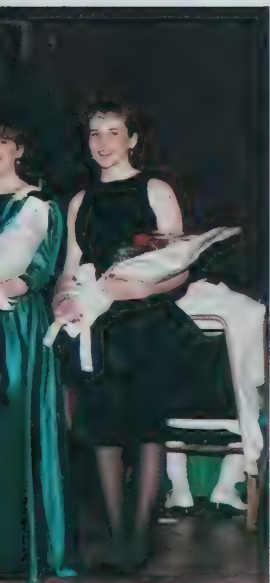

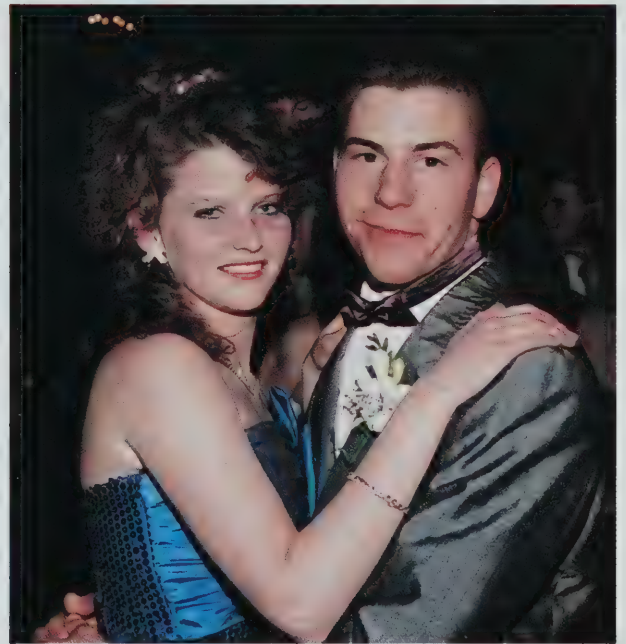

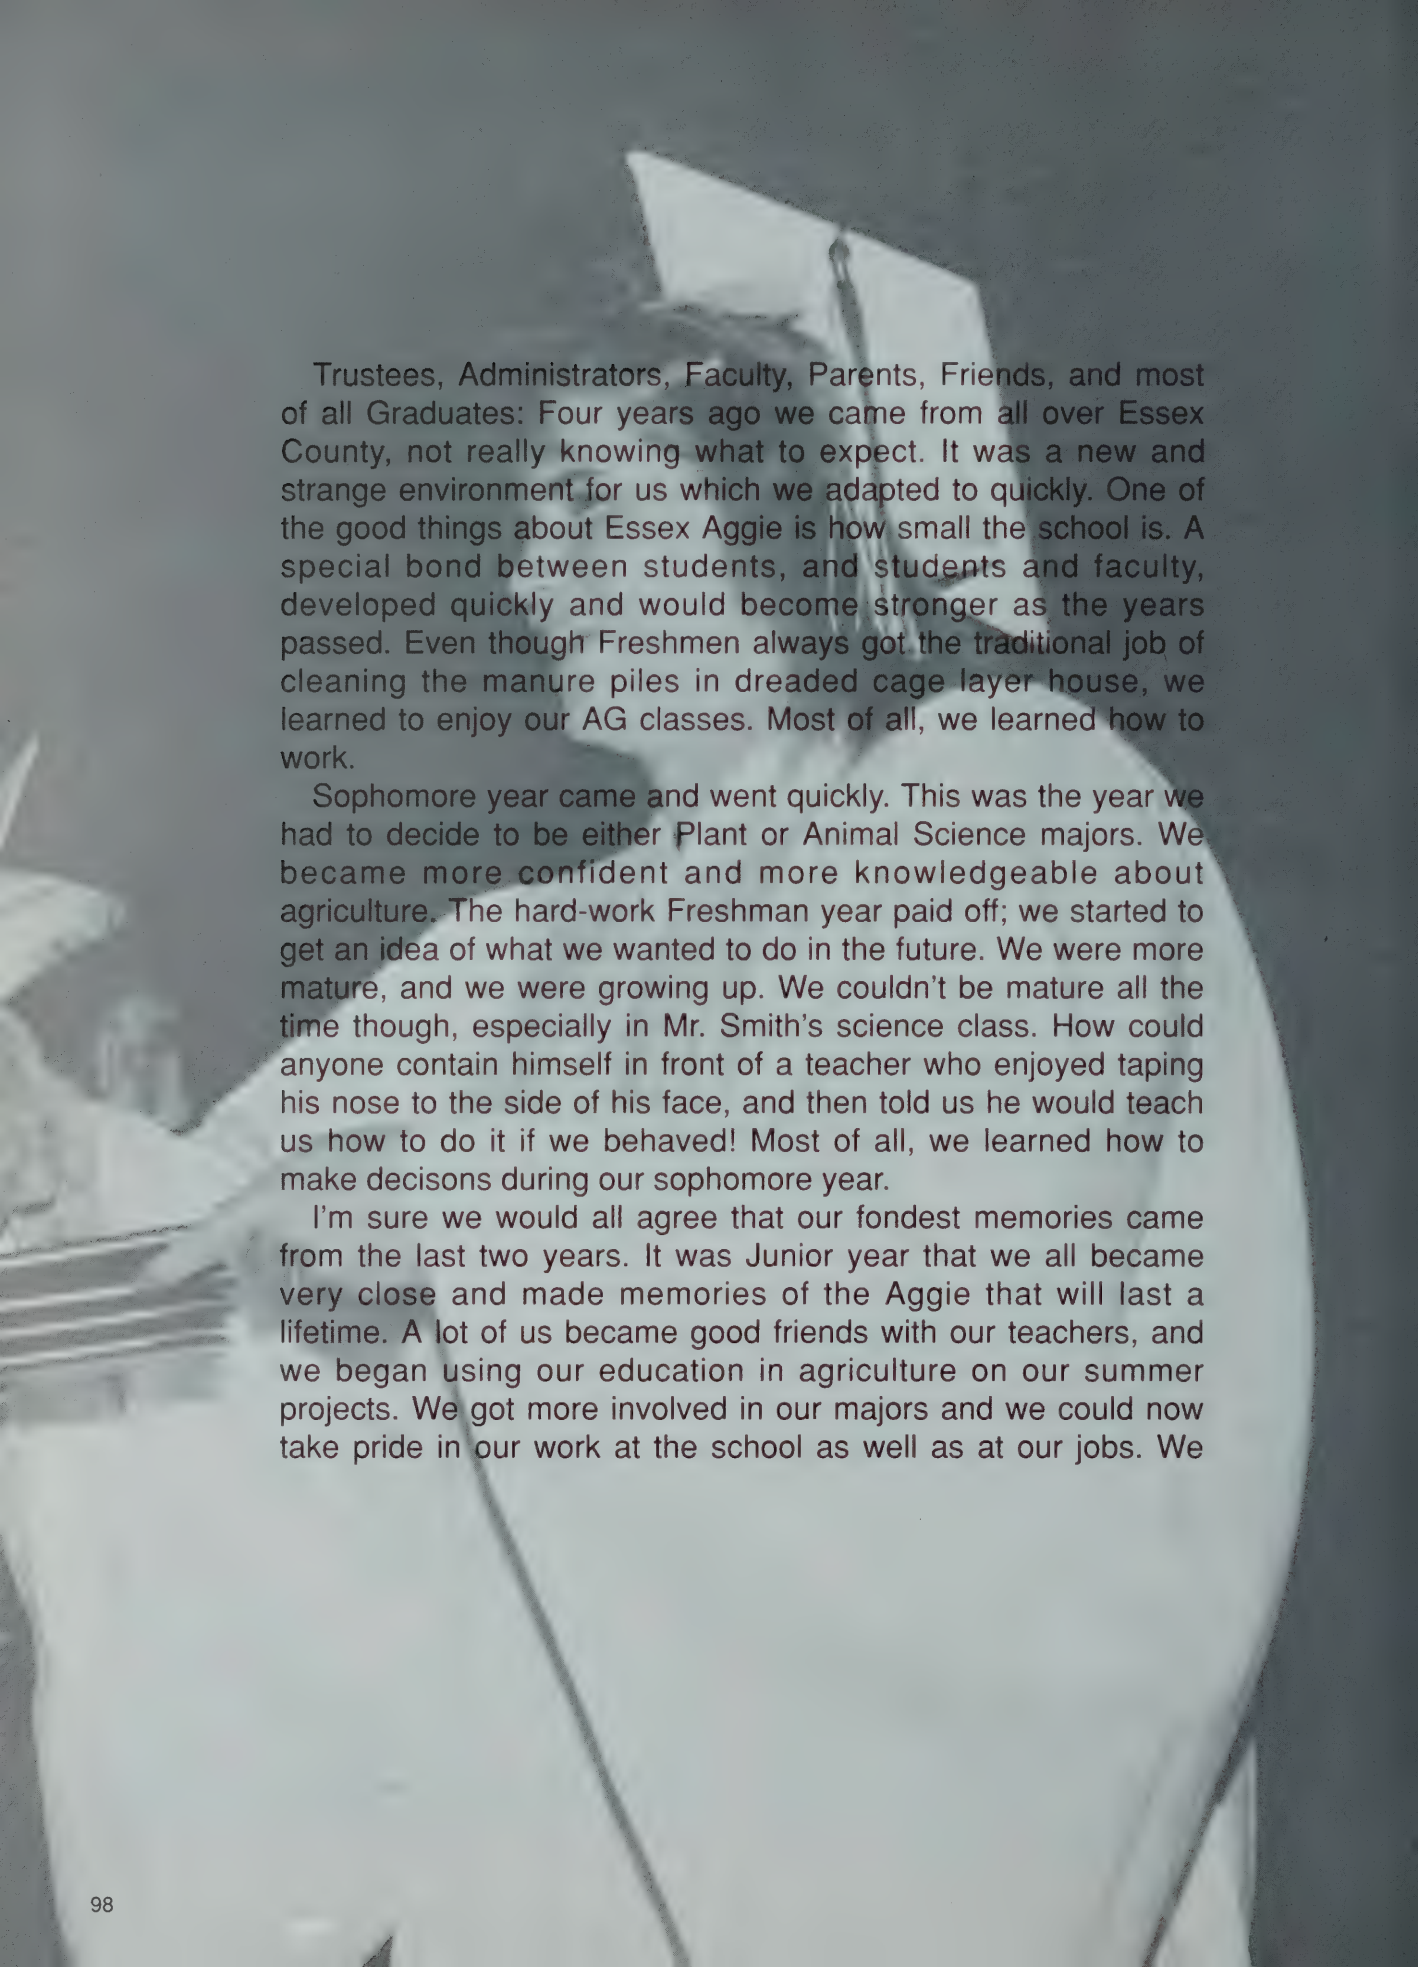

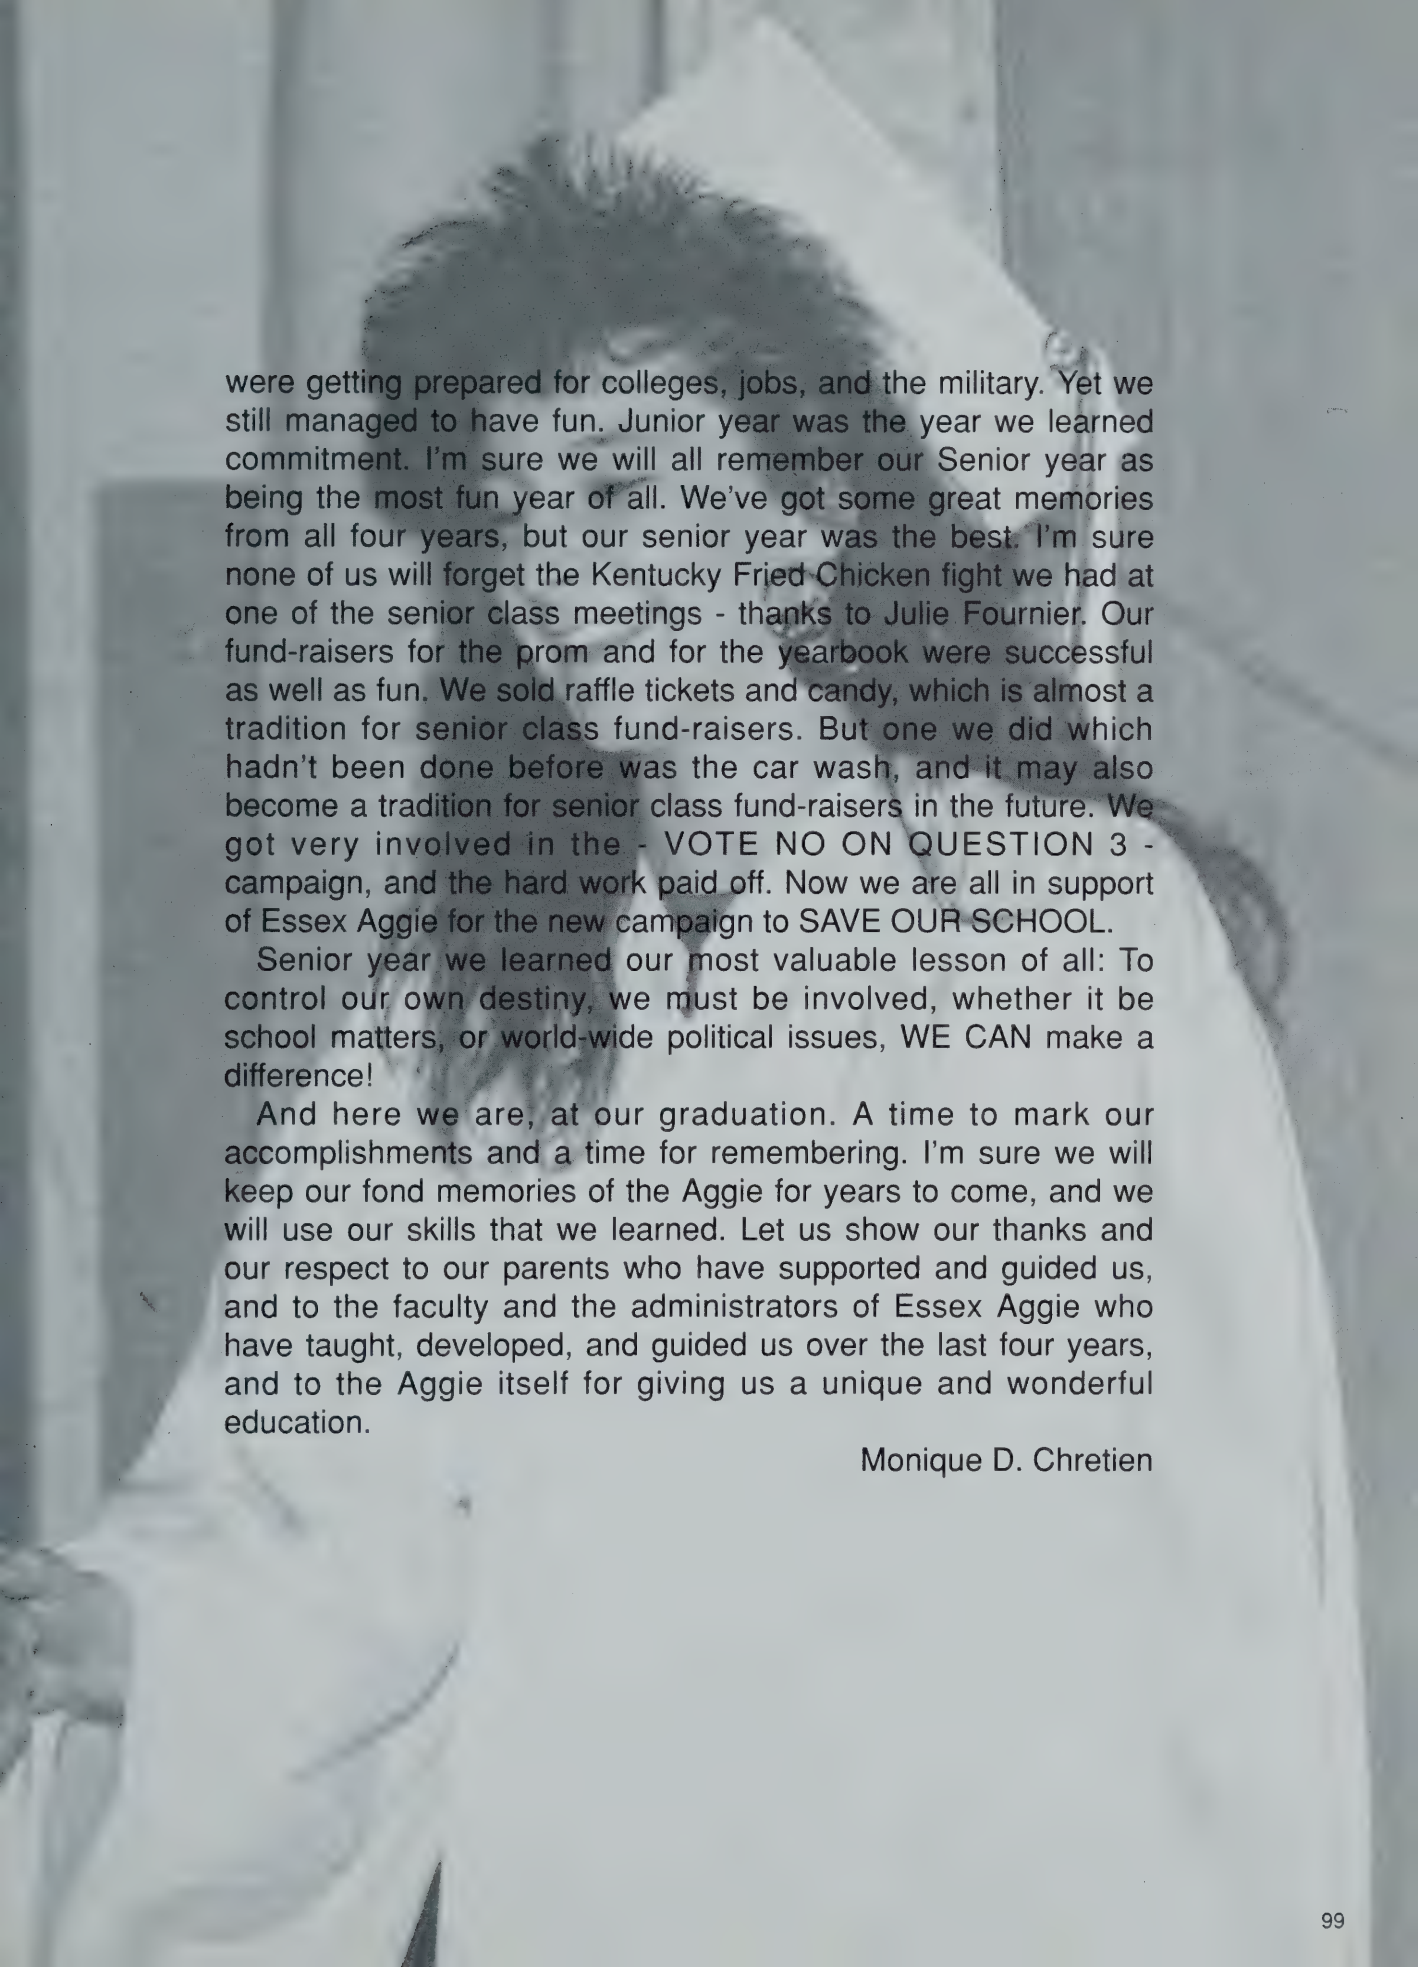

Trustees, Administrators, Faculty, Parents, Friends, and most of all Graduates: Four years ago we came from all over Essex County, not really knowing what to expect. It was a new and strange environment for us which we adapted to quickly. One of the good things about Essex Aggie is how small the school is. A special bond between students, and students and faculty, developed quickly and would become stronger as the years passed. Even though Freshmen always got the traditional job of cleaning the manure piles in dreaded cage layer house, we learned to enjoy our AG classes. Most of all, we learned how to work.

Sophomore year came and went quickly. This was the year we had to decide to be either Plant or Animal Science majors. We became more confident and more knowledgeable about agriculture. The hard-work Freshman year paid off; we started to get an idea of what we wanted to do in the future. We were more mature, and we were growing up. We couldn't be mature all the time though, especially in Mr. Smith's science class. How could anyone contain himself in front of a teacher who enjoyed taping his nose to the side of his face, and then told us he would teach us how to do it if we behaved! Most of all, we learned how to make decisions during our sophomore year.

I'm sure we would all agree that our fondest memories came from the last two years. It was Junior year that we all became very close and made memories of the Aggie that will last a lifetime. A lot of us became good friends with our teachers, and we began using our education in agriculture on our summer projects. We got more involved in our majors and we could now take pride in our work at the school as well as at our jobs. We

were getting prepared for colleges, jobs, and the military. Yet we still managed to have fun. Junior year was the year we learned commitment. I'm sure we will all remember our Senior year as being the most fun year of all. We've got some great memories from all four years, but our senior year was the best. I'm sure none of us will forget the Kentucky Fried Chicken fight we had at one of the senior class meetings - thanks to Julie Fournier. Our fund-raisers for the prom and for the yearbook were successful as well as fun. We sold raffle tickets and candy, which is almost a tradition for senior class fund-raisers. But one we did which hadn't been done before was the car wash, and it may also become a tradition for senior class fund-raisers in the future. We got very involved in the - VOTE NO ON QUESTION 3 - campaign, and the hard work paid off. Now we are all in support of Essex Aggie for the new campaign to SAVE OUR SCHOOL.

Senior year we learned our most valuable lesson of all: To control our own destiny, we must be involved, whether it be school matters, or world-wide political issues, WE CAN make a difference!

And here we are, at our graduation. A time to mark our accomplishments and a time for remembering. I'm sure we will keep our fond memories of the Aggie for years to come, and we will use our skills that we learned. Let us show our thanks and our respect to our parents who have supported and guided us, and to the faculty and the administrators of Essex Aggie who have taught, developed, and guided us over the last four years, and to the Aggie itself for giving us a unique and wonderful education.
